SKILLS

CLIENT-SIDE

HTML

CSS, Bootstrap

Javascript

Jquery Ajax

vue.js

React.js

SERVER- SIDE

Python

Django / Flask

DATABASES

MySQL

Postgres

SQL server

db.sqlite

EDUCATION

Bachelor of Science in Computer Science

Iqra University Islamabad

2020-2024

PROFILE SUMMARY

Driven and enthusiastic full-stack developer with 1.5 years of experience working with Python (Django), React.js, and MySQL. I bring a "can-do" attitude and a passion for solving complex problems through high-quality, scalable solutions. With expertise across both frontend and backend technologies, I thrive in dynamic environments that foster innovation and continuous learning. Committed to delivering impactful results, I am eager to further develop my abilities and contribute to the success of ambitious, forward-thinking teams.

WORK EXPERIENCE

Junior Python Developer

ALGORYC

Mar 2024 - Present

- Implemented and managed different role-based permissions for content editors and superusers.
- Developed and maintained dynamic dashboards tailored for various user roles.
- Designed and optimized ORM queries for efficient database interactions.
- Created, managed, and maintained Django models for smooth backend operations.
- Integrated multiple third-party APIs to enhance functionality and user experience.
- Implemented payment processing with Stripe, supporting various pricing models and payment plans.
- Developed dynamic features for improved user interaction and engagement.
- Designed responsive web pages using HTML, CSS, and Bootstrap.
- Utilized jQuery and AJAX for seamless dynamic content updates.
- Managed templates using the Django templating engine for consistent UI/UX.
- Developed an authentication and authorization system to secure user access and data.
- Integrated CKEditor for managing large content efficiently.

Python Django | React Internee

dbqb Labs

2023-2024

- Proficient in Python programming language, focusing on web development using the Django framework.
- Familiar with building web applications using Django, including creating models, views, templates, and handling URL routing.
- Basic understanding of front-end development technologies such as HTML, CSS, and JavaScript.
- Beginner-level experience with the React.js library for building user interfaces in web applications.
- Eager to learn and expand proficiency in Python, Django, and React.js through further projects and professional development opportunities.

FULL STACK DEVELOPER

EXPERTISE

- **Backend Development:** Python, Django/Flask
- **Frontend Development:** React.js, vue.js, HTML, CSS, JavaScript, Bootstrap
- **API Development:** RESTful APIs, OAuth, JWT
- **Authentication:** Implemented secure authentication mechanisms
- **Database Management:** MySQL, SQL Server, SQLite, PostgreSQL
- **Cloud :** AWS (EC2)
- **Version Control:** Git, GitHub, GitLab
- **Payment Gateway Integration:** Stripe

WORK EXPERIENCE

Final Year Project

Description:

2020-2022

Developed VCarPK, a user-friendly web platform for Pakistani car buyers, designed to provide comprehensive car information, facilitate informed buying decisions, and foster a community for car enthusiasts.

- Designed a visually appealing and accessible UI, ensuring ease of use for all users.
- Implemented AI features using Deep Neural Networks for accurate and reliable image recognition, providing instant vehicle details from uploaded images.
- Developed advanced search filters, a car comparison system, and a community tab to enhance user experience.
- Compiled extensive data on Pakistani market vehicle variants and integrated 3D models for real-time viewing.
- Established a community platform with discussion rooms, enabling car enthusiasts to engage and share knowledge.

Projects

Shopyoga

- Developed Shopyoga, a comprehensive web platform for booking yoga events worldwide.
- Implemented user authentication and role-based permissions for seamless user management.
- Designed responsive and user-friendly interfaces using HTML, CSS, and Bootstrap.
- Integrated payment processing for secure transactions with various pricing options.
- Developed dynamic features using JavaScript and AJAX for enhanced user engagement.
- Managed backend functionality with Django, including ORM models and API integration.
- Implemented a blog section for user interaction and community building.
- Utilized PostgreSQL for efficient data management and storage.
